### **Rating Action: Moody's Ratings assigns Aa2 to University of Southern California's (CA) revenue bonds; outlook stable**

---

14 Mar 2025

New York, March 14, 2025 -- Moody's Ratings (Moody's) has assigned a Aa2 rating to the University of Southern California's, CA (USC) proposed up to \$600 million of (tax-exempt) Revenue Bonds, Series 2025A issued through the California Educational Facilities Authority. The bonds are expected to have a single bullet maturity in fiscal 2055, but subject to market conditions. We have also affirmed USC's Aa2 issuer and parity revenue bonds. As of June 30, 2024 the university had \$3.6 billion of debt outstanding. The outlook is stable.

#### RATINGS RATIONALE

The Aa2 issuer rating reflects USC's strong student market and research enterprise, growing scale of operations, exceptional fundraising and good revenue diversity. USC's excellent brand and strategic positioning is supported by solid revenue growth across its business lines, global student market draw and average annual gift revenue exceeding \$500 million. These strong credit attributes, including record fundraising in fiscal 2024, help offset the proposed new debt and support long term credit health while USC manages through a period of weaker operating performance. Through budget restrictions and other fiscal measures, management is taking steps to return to stronger operating performance. Management expects modest improvement in fiscal 2025 performance with more substantive improvement by fiscal 2026. Uncertainty around federal policy and funding add potential additional financial and operational complexities.

While the university continues to make adjustments to its graduate online programs, including rightsizing both in size and scope, undergraduate enrollment continues to show significant strength, with 93,000 applicants in fall 2024 and improving admissions yields. Strong pricing power will continue to support prospects for favorable growth in net student charges. Additionally reflected in USC's rating is its rising healthcare exposure, comprising approximately 43% in fiscal 2024 operating revenue, and debt portfolio comprised of large bullet or deferred principal structures.

The assignment and affirmation of the Aa2 revenue bond rating reflects the issuer rating and the broad unsecured nature of the payment obligation.

The affirmation of the Aa2 rating on the Series 2018 bonds (USC Arcadia Hospital) reflects the issuer rating and the unsecured nature of the payment obligation under the MTI.

#### RATING OUTLOOK

The stable outlook incorporates USC's thinner operating performance with some incremental gains made in fiscal 2025 and expectations for marked improvement in fiscal 2026. It additionally includes the continuation of significant fundraising, strong student demand and no material increase in long-term borrowing over the next 12-18 months.

#### FACTORS THAT COULD LEAD TO AN UPGRADE OF THE RATINGS

- Growth in total wealth that leads to materially stronger coverage of debt and operations
- Sustained strengthening of healthcare operations and university wide operating performance

with at least 10% EBIDA margins

- Material improvement in unrestricted liquidity relative to the university's growing operations

#### FACTORS THAT COULD LEAD TO A DOWNGRADE OF THE RATINGS

- Inability to incrementally strengthen EBIDA margins in fiscal 2025 with more substantive progress in fiscal 2026, especially if combined with lagging cash and investments growth
- Additional long term debt issuance, particularly without growth in EBIDA and balance sheet reserves
- Weakening of reputation and strategic positioning as evidenced by weakened student demand, philanthropic support and ability to sufficiently grow operating revenue

#### LEGAL SECURITY

The university's bonds, including the proposed Series 2025A bonds, are an unsecured general obligation.

An MTI governing the obligation originally issued for the benefit of Methodist Hospital of Southern California, now USC Arcadia Hospital, whose sole corporate member is USC Health, established an obligated group for the benefit of the 2018 Bond Obligation, which became an unsecured joint and several general obligation of USC and USC Arcadia Hospital.

#### USE OF PROCEEDS

Proceeds from the Series 2025A bonds will be used to help finance various capital projects at both the university and the health system.

#### PROFILE

University of Southern California, founded in 1880, is a large, private research university located in Los Angeles. With FTE enrollment of over 43,000, it is one of the nation's largest private universities. It has a vast operating scale and scope of operations, generating nearly \$7.4 billion in operating revenue (per Moody's calculations) for fiscal 2024 across its academic, research and clinical enterprises. USC's integrated health care system generated \$3.2 billion in revenue for fiscal 2024 (included in \$7.4 billion total operating revenue) and comprises approximately 43% of total operating revenue.

#### METHODOLOGY

The principal methodology used in these ratings was Higher Education published in July 2024 and available at <https://ratings.moody.com/rmc-documents/425580>. Alternatively, please see the Rating Methodologies page on <https://ratings.moody.com> for a copy of this methodology.

#### REGULATORY DISCLOSURES

For further specification of Moody's key rating assumptions and sensitivity analysis, see the sections Methodology Assumptions and Sensitivity to Assumptions in the disclosure form. Moody's Rating Symbols and Definitions can be found on <https://ratings.moody.com/rating-definitions>.

For any affected securities or rated entities receiving direct credit support/credit substitution from another entity or entities subject to a credit rating action (the supporting entity), and whose ratings may change as a result of a credit rating action as to the supporting entity, the associated regulatory disclosures will relate to the supporting entity. Exceptions to this approach may be applicable in certain jurisdictions.

For ratings issued on a program, series, category/class of debt or security, certain regulatory disclosures applicable to each rating of a subsequently issued bond or note of the same series, category/class of debt, or security, or pursuant to a program for which the ratings are derived

exclusively from existing ratings, in accordance with Moody's rating practices, can be found in the most recent Credit Rating Announcement related to the same class of Credit Rating.

For provisional ratings, the Credit Rating Announcement provides certain regulatory disclosures in relation to the provisional rating assigned, and in relation to a definitive rating that may be assigned subsequent to the final issuance of the debt, in each case where the transaction structure and terms have not changed prior to the assignment of the definitive rating in a manner that would have affected the rating.

Moody's does not always publish a separate Credit Rating Announcement for each Credit Rating assigned in the Anticipated Ratings Process or Subsequent Ratings Process.

Regulatory disclosures contained in this press release apply to the credit rating and, if applicable, the related rating outlook or rating review.

Please see <https://ratings.moodys.com> for any updates on changes to the lead rating analyst and to the Moody's legal entity that has issued the rating.

Please see the issuer/deal page on <https://ratings.moodys.com> for additional regulatory disclosures for each credit rating.
